THE EVENING WORLD has a larger circulation than any Evening paper printed in English and is not afraid to publish its figures or open its books to the public.

WHERE TO BEGIN.

The State Senate is very ready to investigate anything and anybody except itself and its lobby.

This is not the way to earn the public con fidence. Investigation and reform, 7 like charity, should begin at home. It is explicitly charged by THE WORLD that two attempts to bribe Senators were made within the very precincts of the chamber. If two attempts were made it is certain that more have been. Lobby agents do not haunt the Legislature for nothing. No doubt Squinz was a bad egg, but he is powerless now. PHELPS and Wood are alive and active.

#### "DEVILED TO DEATH."

In this graphic phrase State Senato EMERY, of Bradford, Pa., described the process by which an independent oil company of which he was President was forced out of business by the Standard Oil Trust: " We were simply deviled to death."

The method of the killing was clearly told. The Standard secured rebates from the rail roads, monopolized the use of cars, and put down prices when necessary. In this way all the independent refineries and pipeline companies, over 250 in number, were crushed out.

And still the Devil-Fish has everything its

J. F. CHESEBROUGH, who bethinks himself that he has had a few financial transactions published a fac simile of Phelps's check bearing his indorsement), says: "It's a d-d shame that THE WORLD keeps up this sort of business when no other paper has a word to say about it."

This is a way of THE WORLD. It "clamored" for a long time before any other paper took an interest in the matter. But "the shame " lies in the fact that jeal-

ousy or envy, or regard for interests that the lobby serves, should keep the other papers silent at a time like this.

#### THE BRIDGE STEAL

The passage of the Hudson River Bridge bill through the Assembly shows that the lobby has been "getting in its work."

Why should it not ply its trade boldly, when Albany Grand Juries will not indict bribers nor legislative committees disturb

MEN OF MERIT.

Assistant Chief of Fire Department.

OME of the most brill-OME or the most by members of the Fire Department are in field which, though necessarily connected with work in their vocation, is not really the primary object of it. I refer to the rescue of human beings from a

Firemen are engaged to put out fires. That is their business. But people are so con stantly caught in burning buildings that efforts to relieve them are a frequent occur rence in the duties of a fireman. They get cut off by fire in a lower story, or else the flames are roaring up the stairway, so that they have no means of egress except such as the Fire Department may supply, Women, who so frequently show as much pluck and a wealthy resident of the Hotel Hoffman, has nerve as a man in the face of peril, have not vet distinguished themselves by an exhibition of their qualities when caught in a fire They almost always drop, and the Grace Darling of a fire is yet to be discovered. Firemen go readily and boldly into great langers at fires, and especially when a human being is in danger. They have no time to hesitate. They must act quickly if they act at all. As a rule they do so act, and from a single sense of duty. It may bring them glory or it may bring them death, but they do not hesitate.

It is strange that occasions for the display of their noble spirit of courage and sacrifice should seem to come so rarely to some and to fall pretty often to the lot of others.

I remember one of the pluckiest rescues I was a quiet, unassuming fellow, whom nobody would have supposed likely to act with such decision and energy.

It was at a fire on Nineteenth street, be tween Seventh and Eighth avenues. The building was a large tenement-house, several stories in height. There were no fire-escapes and the flames had got a good start.

The heat had driven a man to the window on the fourth story. He had not had time to dress and stood there in his night-shirt yelling for help. A thirty-five foot ladder was hurriedly run up against the house and some of the men started up. They had not got to the top when the ladder broke.

The men were thrown to the street, and two or three of them were severely injured. An ambulance had to be summoned to take them to the hospital. This made the position of the man on the fourth story anything but enviable. The ladder was broken, and so made useless, and there was no other at hand. The heat was getting so great that anything that was to be done for the man James Crowley, an engineer, of 326 First had to be done quickly, or else it would be of no avail. I expected every minute that he would spring from the window. It seemed rather cruel to tell him to hold on, when holding on was to get burned to death. At this juncture the hero of the hour ap

peared, Luke Clayton. He was a quiet, modest fireman on the Hook and Ladder Truck No. 16, but he was the man called for by the occasion.

He took in the situation at a glance. The window at which the man stood was the one nearest the adjoining building. The winlows of the two houses were not, however, on a line. Those of one were some feet higher than those of the other. Clayton looked at the two houses for a sec-

ond, and then calling four or five men to come with him, ran swittly up the stairs of the building next to the one on fire. He went to the window of the room nearest that at which the man stood. The crowd in the street below saw Clayton appear at the window and look at that where

meant to get the man out, but he clearly had the intention of rescuing him, or at least of He disappeared for a moment, and the next the people saw him coming out of the window slowly, head first. As more of his body got out it was seen that several of the men whom he had called to go up with him when he

three months ago. About that time her mother secured a divorce from her husband and came to Boston, engaging apartments at the Hotel Hoffman.

Tommy Casey worked for Dyar Brothers, provision dealers, on Columbus avenue. Soon after Mrs. Shewell went to live at the hotel she began to buy provisions, &c., of Casev's employers. The butcher boy became acquainted with Nellie and from that time both have loved each other.

They had many meetings unknown to the girls' mother, and last Saturday they planned to run away. The chance they wished for came Monday. On that day Mrs. Shewell gave Nellie \$130 to go to Providence and pay the assessment on the life insurance policy.

Mrs. Shewell, soon after giving her daughter the money, went to visit a friend and did not return until late that evening. As soon as she was out of sight Nellje sent her mother's errand boy to get a horse and buggy for her. > All That He Need Do Is to Veto the Walker Bill.

The Evening World's" Petition for the Veto of the Half-Holiday Repeal Receiving Thousands of Signatures-Hundreds of Letters in Support of the Movement-How the People Can Help Along the Work-Samples of Many Letters.

THE EVENING WORLD'S call for signers to ts petition, asking Gov. Hill to veto the repeal of the Saturday Half-Holiday law, is being answered with a will. Hundreds of letters come pouring in from people in all walks of life begging the Governor to put a stop to the capitalistic usurpation of the publie rights.

There can be no doubt about the popularity of THE EVENING WORLD'S movement. This is Gov. Hill's chance to make himself even a greater favorite than he now is with the working people of this city. Should be veto the Walker bill, as tens of thousands of workers are praying that he will, his brave and honest act will never be forgotten.

The people can help on this good work by circulating THE EVENING WORLD'S petition. Here are a few of the many letters received

this morning:

L. E. Rector. of 40 Walker street, writes:

'It was my intention to send you this last night, but after working fourteen hours I am too tired to do anything but go to bed. I hope my petition will reach you in time. With best wishes for The Evening World, "Mrs. M. C. Morrell, of 230 West Thirty-sixth street, writes: "Again you are engaged in a grand and glorious cause. Go ahead, and may Heaven bless your noble efforts. Wage-workers, one and all, come out, forts. Wage-workers, one and all, come out, fight your own battle and let your name be enrolled upon the petition sand enrolled upon the petition sent out by The Evening World.
"Now is your time to strike for freedom.

Every inch gained is a step towards still greater freedom. The Evening World seems to accomplish about what it starts out for.

"You are now doing a grand work in more

than one direction. You are unearthing fraud wherever you find it, and make the effort to do so. Push ahead and you will win"
Charles Diemer, of 303 East Ninety-third street, writes "Thanks for your noble acts towards the working people. I hope that

you will succeed."

J. M. writes: "Legalize the half holiday and make an even thing of it between employers. As it now operates the mean man has all the best of it. Also, let us have more rest for the weary worker and more work for the enforced idler. There are about eighty or ninety co-workers here that, I think, would be glad of an opportunity to sign your

petition."

A. B. Reilly, with Thurber, Whyland & Co., writes: "Inclosed please find hist with signatures of a few of the clerks that work in the office. I will get a great many more, as there are over fifty clerks employed here."

John J. Hickey, of 89 Monroe street, writes: "As one of the wage-workers of this liberty loving country and a citizen of the State of

loving country and a citizen of the State of New York, I take this means of thanking you for your noble efforts in favor of the working for your noble efforts in favor of the working classes of this great city. "I would to God we had a few more such men and papers as THE EVENING WORLD and its staff. Then Labor would not have such an uphill fight against Capital as it has.

"I think, sir, your opinions on the Saturday half holiday are the best, and I agree with you that the curtailing of those few hours is both a benefit to the workingmen and the city at large.

"Without doubt it will prove eventually without doubt it will prove eventually a credit to the city and also to the good men who have championed the cause which is both noble and holy—the cause of Labor.

"I hope that our Governor will not soil his past record, but throw up his hat this time in the cause of Labor, to crown the efforts of those good champions."

those good champions."

John Downing writes: "I believe that our petitions to the Governor will have a good result for us."

Sign the petitions, which can be had at the office of The Evening World. If the Governor does not veto the bill before May 7 it will become a law.

#### AN EXCITING BOAT RACE.

Harvard Justers Beat the Crescents by ISPECIAL TO THE WORLD.

Boston, April 27 .- An exciting race took place between the Harvard Junior Class crew and an eight from the Crescent Boat Club. The race took place according to agreement between the two crews and was an exciting one. The start was made near one of the abutments of the New Harvard bridge. One mile was the distance rowed, the crews finishing at the Boston and Albany Railway bridge at Cottage Farms.

Both struck at 38 to the minute, which stroke was increased to 40 to the minute. The race was pulled in a very steady fashion until within twenty five yards of the finish, when the Harvards made a tremendous sourt and crossed the line a winner by about one quarter of a length.

The Crescent crew were practically with-

out practice, which shows what they could do after a few weeks' hard work.

One of the Crescents, in speaking of the race, said: "There are no dumnies in the Harvard Junior Class boat. They pull a clean, powerful stocke, and there is no 'wait' in it. The other class crews will have to pull to win the class race."

When the startling disclosures as to Kentucky Ann's moral character were made under oath on the witness-stand and the fact could no longer be concealed that she is not the wife of Diss Detar. Mr. Marsh determined that she was not a fit person to have

charge of children of tende; age.

It was with the intention of putting them entirely out of her control that on Wednesday morning he had the girl removed to the private house of a friend on Twenty-eighth street, between Madison and Fourth avenues. Douglas Stewart, Mr. Marsh's nephew, took the children there and arrangements were made for them to remain with the lady. Mr. Marsh thought the matter was settled. but was surprised to hear yesterday morning that the children had been taken from the house by a woman who brought a letter from

their mother and who said they were to be taken to a house in Harlem. Mr. Marsh tried to trace them all yester-day. Late in the evening he visited the office it the Society for the Prevention of Cruelty to Children and invoked its aid to find children and provide for them. He said feared the consequences if their not were allowed to retain control over them.

Agent Stocking and his men have been looking for the children until this hour, but without success. Ann O'Delia will not tell where they are, and as they no longer pay their daily visit to the Tombs it is difficult Mr. Marsh and his nephew, Douglas Stew-

art, are now the sole occupants of the house 166 Madison avenue. The servants whom Ann O'Delia engazed have deserted.

Mr. Stewart told an Evening World reporter this morning that Mr. Marsh was out trying to trace the children. He corroborated the statement made above, but said Mr. Marsh had told Mr. Gerry's people nothing about his visit. He would i nothing about his visit. mills, which were drawing greatly on their resources."

"Mr. Bard and an assistant are now going over the books, and when the actual loss is accertained a meeting of the creditors will be held and they will try to effect an arrangement to have the mills resume work and by degrees pay off the judgments."

From outside sources it was learned that Russell Dart, sr., had entire charge of the business and that since the failure he had not been seen.

## THE MULES.

The mule is not brilliant, intellectually. If you must argue with him, a few cold facts well rubbed in with a stout club are the best convincers. Moreover, they see unsually ill-tempered, obstinate and great " kickers," The mule, like the jackase, has its prototype in the human family. There are mulish and asinine men and women in this world, and we are trying to club a little ense into some of them.

There is, for instance, the man who has Bright's Disease of the Kidneys and won't recognize it until it has passed the curable stage and he is dropsical all ever; there is the person with chronic dyspepsia who insists that he has mental trouble and can't be cured, and some fine morning blows his brains out; there is the woman, who, because she always has suffered the tortures of the damned during childbirth, still invists on suffering, though relief and comfort are possible; there are the man and wife, the one a wreck sexually, the other wesk, nervous, bloodless and hysterical, who are having miserable, puny, diseased children that die early or become life-long invalids; there is the mother who fills her poor child with opiates every time it cries and then wonders how it came to die of Cholers Infantum or Convulsions. And there are thousands of others. The "fool killer " hasn't been around in a long time and the crop is over-heavy.

Know ye mules, as every sensible person and intelligent doctor already knows, that there is a remedy called Scotch Oats Essence, and that it will cure and relieve most of your ills besides clearing your stupid brains.

Insanity, paralysis, dyspepsis, diseases of women neadache, neuralgia, consumption, Bright's Disease of the Kidneys, convulsions in children all fly before it. B ects on bowels, brain and liver to sweeten, heal, purify After April 15, 1888, every bottle of Scotch Oats Essence manufactured by the company will have on its pasteboard wrapper a \$10,000 forfeit guarantee that it

ROME AND IRELAND.

His Holiness Lee XIII. Boston, April 27 .- John Boyle O'Reilly, editor of the Pilot, has received from his special correspondent in Rome the following cablegram:

through agents of the London Chromicie that the Pope has condemned the plan of campaign remain unconfirmed. Certain abuses connected with the administration of the plan are, however, prohibited. Forcing tenants who are opposed to the plan to enter it is denounced. This denunciation will affect a very small proportion of the Irish tenants, for there are few of them who have needed any infinement to enter its only compensation and in the result. teuan's, for there are few of them who have needed any inducement to enter into the only combination which offered any definite prespect of redress for their grievances. The Holy Office has issued a circular which the Propagana will distribute probably to-morrow. It is well known here that last December when Bish p Dwyet, of Limerick, and Coadjutor-Bishoo Healy, of Clonfert, expressed their disapprobation of the plan its intrinsic rectifude was warmly upheld by the overwheiming majority of the frish bashops and priests. Archbasoo Waish, of Dublin, in compliance with the Pope's invitation, latery spent several weeks at Gennar-zano preparing a written statement of the case of Ire and for His Holmest. It is doubtless owing to the statement that the Irsa bishops and priests stand now fully justified in their support of the plan of campaign.
